

FAQs

What about my e-mail address?

You can have up to eight e-mail addresses. Additional e-mail addresses can be purchased for only \$3.00 per month each. The e-mail address on our Internet service will be <your choice of names here>@HomeSC.com.

What is a Dynamic IP?

IP stands for "Internet Protocol." An IP address enables a computer to be identified on the Internet while the user is online. A dynamic IP address (included with our Internet packages) is one that is temporarily assigned to a user from a pool of IP addresses from a centrally administered server. It means that you have a different IP address each time you log onto the Internet.

What is a Static IP?

This is an Internet Protocol address that remains the same every time a user logs onto the Internet. Because it is a "fixed" address, it is easier for other Internet users to locate and connect to the hosting computer. There is a \$20 per month fee for static IP addresses.

REQUIREMENTS FOR DSL SERVICE

- Home Telecom phone service at your address

WITH HOME TELECOM'S HIGH SPEED INTERNET SERVICE, YOU GET:

Unlimited Access: There are no time or data restrictions on your Internet usage. With Home Telecom, you receive unlimited service for one flat fee.

E-Mail Addresses: You get eight e-mail addresses with your residential account.

Internet Security: Free Trend Micro Internet Security Software. Available to all High Speed Internet subscribers (a \$89.95/year value).

*Installation charges apply. All services/speeds not available in all areas. Listed speeds are "up to" speeds and are not guaranteed. There are many factors that may cause actual speeds to vary that are outside of our control such as equipment used and external network conditions. With MyWiFi an installation fee applies. The first 4 wireless devices are included in the installation fee; additional devices can be networked for a one-time fee of \$9.95 per device. Devices must have wireless capabilities and meet minimum system and security requirements. Must be a Home Telecom high speed Internet subscriber.
